EASTERN NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

President Grant at Denver

DENVER, Oct 5.—President Grant and party were met by Governor Routt and a delegation of city officials at Cheyenne and escorted thence to Denver on a special train, arriving here at 5:30 o'clock this afternoon. His reception here was enthusiastic, a battalion of soldiers and several thousand people participating. The President will to-morrow visit Colorado Springs, Pueblo and other points of interest on the Denver and Rio Grande railroad.

Firemen's Convention.

NEW YORK, Oct. 5.—This is the second day of the session of engineers of fire departments of the United States. A committee was appointed on by-laws, who will make a report at the next session of the [illegible]. A committee of six was appointed to [illegible] into the question whether a system of self supporting ladders could be depended upon to meet [illegible] caused by the erection of lofty buildings. It was also resolved to give owners of apparatus an opportunity of exhibiting their articles to [illegible]. Resolutions of regret were passed and of condolence with the friends of deceased [illegible] who lost their lives by the late aerial ladder [illegible].

NEW YORK, Oct. 6.—The firemen's convention opened its session this morning with President [illegible] in the chair. The committee on topics [illegible] the following for a report: First, the importance of the position of chief [illegible] chief engineers; second, the evils of [illegible] engine companies, by which towns [illegible] partly unprotected; third, the [illegible] of regulating the sale of petroleum; [illegible] of gasoline gas machines and [illegible] to regulate the same; fifth, [illegible] the department with reference to the [illegible] property from damage of water as [illegible]; sixth, the importance of so arranging [illegible] that they may be opened from [illegible] the building in case of fire; seventh, [illegible] construction and closing of signal [illegible]; the importance of a uniform system of [illegible] location of street hydrants and [illegible] of which is a most effective plan [illegible] fires; tenth, the importance [illegible] of fires and vigorous [illegible] incendiaries.

The first of these topics was debated in the affirmative and negative. This topic was formally referred with others to committees for consideration [illegible].

[illegible] REPORT.—The National Association of [illegible] continued in convention this evening. A large number of inventors were present with their inventions, which they exhibited to the [illegible]. A model of the fire escape on aerial [illegible] used by the Milwaukee fire department was exhibited. It was decided to hold the next convention in September, 1876, in Philadelphia.

The various committees appointed at the morning [illegible] reported as follows: Hydrants should be located near street corners if possible, there should be plenty of them where large blocks of [illegible] warehouses exist; vigorous search and [illegible] inquiry should be made into the origin [illegible] and incendiaries promptly punished. The [illegible] recommend the use of iron shutters [illegible] openings capable of being opened from the [illegible]. The position of chief engineer should be [illegible] as it was one requiring long study and [illegible]. Politics should be kept far away from [illegible]. A patrol and salvage corps in all [illegible] of 60,000 or more inhabitants is recommended. The committee recommended the discontinuance of social visits of fire companies with their [illegible] from one city to another, and that the [illegible] be prohibited by them. The use of [illegible] engines with carbonic gas is [illegible] as being peculiarly adapted for [illegible] of petroleum and other oil fires. [illegible] condemned as being extremely dangerous, and its manufacture has been the cause of [illegible] for making it should be [illegible] and not less than sixty feet away from [illegible] they supply. It was recommended that [illegible] be painted bright red and be [illegible] uniformly. The sale of petroleum in [illegible] to be prohibited when the flashing point [illegible] 110°. It is always liable to explode [illegible] up to this standard. The convention will [illegible] to-morrow.

[illegible] Canal Frauds.

[illegible]—The fifth report of the Canal [illegible] made public to-day, [illegible] the financial result of Geo D Lord's ca[illegible] contractor with the state, so [illegible] gives an aggregate of [illegible] actually paid by or charged [illegible] for work covered by his repair [illegible] of $11,400 a year. It implicates in these [illegible] several canal commissioners and inspectors, [illegible] of both branches of the state legislature, and says in whatever direction the inquiry [illegible] fraud and corruption are encountered at [illegible].

[illegible] of a Railway Mortgage.

[illegible], Oct 5.—A bill of foreclosure on [illegible] and Ohio Railroad first mortgage [illegible] in the U S circuit court for this [illegible]. A [illegible] one has also been placed on [illegible] West Virginia. An order pre[illegible] receivership, together with an injunction [illegible] any interference with any mort[illegible] pending the proceedings has been [illegible] road.

Not to be Closed.

[illegible], N. Y., Oct. 5.—The comptroller and [illegible] general of this state, have receded [illegible] position regarding state appropriation [illegible] Washington headquarters in this city [illegible] that a half yearly installment of the [illegible] due to the trustees on the 1st of October [illegible] will be paid over forthwith, and Head[illegible] building will not be closed.

Epizooty.

[illegible], Oct. 5.—The disease among horses [illegible] the epizootic, has, within a few days, re[illegible] among horses here. In all the street [illegible] the horses are coughing, though [illegible] down as yet. In many private stables the [illegible] is [illegible] in the swelling of the glands [illegible] of the animals. At the lowest estimate [illegible] are suffering more or less from the dis[illegible].

[illegible], Oct. 5.—The epizootic is spreading and [illegible] stables in the city are affected. The [illegible] is also prevalent in Toronto, Hamilton and [illegible].

Tweed Still in Chancery.

NEW YORK, Oct. 6.—The supreme court general [illegible] rendered a decision this morning, Judges [illegible] and Brady giving the opinion confirming [illegible] order in chambers denying the motion to vacate the order of arrest on the six million [illegible] suit against Wm M Tweed or to reduce [illegible] million dollars bail. Another decision [illegible] through Judge Davis reversing Judge [illegible] order, from which the people appealed [illegible] bill of particulars as to the fraudulent vouchers complained of by the people.

Gold and Stocks.

NEW YORK, Oct. 5.—Gold 16⅞@17; money 1½@2 [illegible] and strong, stocks active, unsettled, W[illegible] Quicksilver 16¾, P M 35¾, W F & Co., [illegible] Central, 102½, Erie, 17⅞, Pacific Mail, 13, [illegible], 65; do bonds, 103⅞, Central Pacific [illegible].

Mail Matter Missing.

PROVIDENCE, R. I., Oct. 6.—Most of the valuable [illegible] sent from this (Providence) postoffice to [illegible] day night are missing. A similar [illegible] loss of bank letters sent to Boston occurred the last of July and smaller losses twice since. The business community is much agitated.

Cheering News from Galveston.

GALVESTON, Oct. 6.—The Galveston bridge over the bay is repaired and trains running regularly into the city. Scarcely any traces remain of the effects of the storm. Business is active in all [illegible] of trade. Contributions are coming in [illegible] sections for the sufferers and is being forwarded to points where most needed. Galveston is greatly benefited by the storm having scoured and deepened the channel over the bar several feet. There is now 14 to 15 feet of water on the bar. Two Liverpool steamers came over to the wharf [illegible] lightering. Work on the Santa Fe railroad [illegible] pushed forward.

Wendell Phillips' Performance in the Beggars' Opera.

NEW YORK, Oct. 6.—The *Herald* publishes a letter of Wendell Phillips to the Legal Tender club of this city. It is an aggressive answer to the recent [illegible] of Mr Schurz and advocates the necessity [illegible] greenbacks and [illegible] checks. He denies the [illegible] of the money manufacture and [illegible] the argument of Mr Schurz relative to [illegible] able currency by reference to the recent [illegible] history of France and Germany.

WORCESTER, Mass, Oct 6.—Wendell Phillips was [illegible] for governor; Wm. F. Bartlett for lieutenant governor; Israel W. Andrews for secretary of state; [illegible] B Coffin for treasurer; John F. Fitzgerald for auditor, and H. B. McLaughlin for attorney general. Resolutions were adopted declaring that the power and strength of the labor movement should be concentrated upon legislation necessary to reduce the hours of labor; a system of factory inspection; the introduction of fire escapes and protection from dangerous machinery; condemning the action of the manufacturers of Fall River; in favor of greenback currency, the retirement of the national bank currency and declaring that banking system a fraud. The convention was in session six hours and the proceedings were at times marked by disorder, which caused some of the members to refuse to act with the majority.

Railway Item.

TOLEDO, Oct. 6.—A stockholders' meeting of the T. W. & W. R. R. Co. [illegible] organized harmoniously [illegible] Cox, chairman, and Messrs. Ashley and Cory appeared as a committee from the recent stockholders' meeting in New York. A full statement of the condition of the company and a history of the foreclosure proceedings up to date were given by the chairman. Mr Ashley offered a resolution requesting the directors to procure delay until further consultation could be had between the stock and bondholders, which passed without opposition. The election is progressing. It is understood the compromise ticket will be elected to fill one third of the board whose places become [illegible].

The Mississippi Troubles

MEMPHIS, Oct 5.—A later private telegram from Helena received about 9 to-night says all the women and children have left Friar's Point. The men were forming in line and a fight was momentarily expected. Assistance is greatly needed. A boat load will leave here to-night. Friar's Point is fifteen miles from Helena and without telegraphic communication.

MEMPHIS, Oct 5.—A still later *Avalanche* special from Helena received at 10:30 to-night says there is great excitement here on account of the condition of affairs at Friar's Point. I passed there this forenoon while people were much excited. The negroes appeared quiet. Many white ladies have left their homes. Senator Alcorn has sent his daughter here for safety. It is reported the negroes 400 strong were within a few miles of the town and General Chalmers, who was in command of the whites, went out and met them and gave them ten minutes to disperse, when the negroes retired some three miles and again organized. Gen Chalmers again advanced, ordered them to disperse, which they did. The latest report from there is that it is supposed the negroes are awaiting reinforcements. Colonel Burke and others have already left here for that place and an effort is being made to organize a force to go down to-night. I think it is similar to the Austin troubles and all stirred up by bad men.

MEMPHIS, Oct 5.—The following private telegram was received from Helena, Ark, this morning: The negroes threaten to burn Friar's Point, Miss, to-day. Several whites from there reached here at 2 A. M. for arms and assistance. A good many men have just left for there and many more are ready to go if needed. Serious trouble is threatened. A gentleman from there gives the following statement: Brown, the colored sheriff, who is a candidate for re-election, came to Memphis last week and purchased a considerable quantity of ammunition, which he took to Friar's Point, and distributed it among his friends. On Saturday night last the Dean conservative convention was held there and a ticket nominated in opposition to the one headed by Brown. Senator Alcorn being present was called upon for a speech, to which he responded and in the course of which he criticised Brown's official career in a severe manner. Brown, who was present, became much excited, and demanded the privilege of replying, but Judge Rex, chairman, fearing bloodshed, adjourned the meeting. Brown announced that he would call a meeting Monday night, and it is supposed the troubles apprehended grew out of this meeting last night.

MEMPHIS, Tenn, Oct. 6.—Following to the Associated Press is just received:

FRIAR'S POINT, Miss, via HELENA, Ark, [illegible] A. M., Oct. 6.—The sheriff of Coahoma county caused our town to be invaded this forenoon by an armed mob of negroes. We drove them back. We are fully organized for defense with Senator Alcorn and Gen Chalmers in command. The sheriff has fled the country. Send aid immediately.

(Signed) H P READ
GEO R ALCORN

The steamer *Moffit* is just in and reports no excitement at Friars', and affairs remain as they were yesterday and last night. It is not advisable for Memphis to send troops. In order to arrive at an understanding about the affairs as shown in the foregoing it may be stated that in the county of Coahoma the negroes have a majority of five to one against the whites; that since the split in the Republican party in the state Sheriff Brown, who is a Kentuckian, has been the leader of the anti-Alcorn party. Friars' Point is the home of Senator Alcorn, and the contest between the rival factions has been a heated one.

MEMPHIS, Oct. 6.—The impression prevails here that there will be bloodshed at Friar's Point and notwithstanding numerous telegrams for men and arms no steps have been taken to forward either. An *Appeal* reporter at Helena telegraphs this morning that Alcorn and Sheriff Brown, colored, were the cause of the apprehended trouble on Monday. At a convention Saturday night, Alcorn denounced Brown severely, and on Sunday Brown used severe language in reply and said he wanted his friends to come to town on Monday and he would expose Alcorn, who then threatened to shoot Brown. The latter then summoned a number of negroes who prepared to come to his assistance. Tuesday Alcorn sent here to Gen Tappan, of the state militia, for arms and men, but only a few men went down. Latest advices state that Alcorn has 70 cavalry and 40 infantry with which he had driven Brown and 200 armed negroes, who retreated three miles from the town where they made a stand. No fighting had yet occurred, and a number of men have left or will go from Helena. This is the substance, cause and nature of the difficulty, which is purely personal and political between Alcorn and Brown. Ames, who is determined to demolish Alcorn's strength, employs Brown, who excites the negroes to his assistance.

MEMPHIS, Oct 6.—The *Appeal's* special from Friar's Point at 11 to-day reports that a skirmish took place between whites and blacks near there last evening. Eight negroes and one white man were wounded. Everybody is under arms, and further appeals are made for help.

Foul Play.

WORCESTER, Mass, Oct 6.—Hon. L. W. Pond, one of the heaviest manufacturers of machinists' tools in this city, has disappeared under very mysterious circumstances. Last Friday he went to Boston on business intending to return the same night. While in Boston he collected about $2,400, but instead of returning he telegraphed his son that he was going to New York on business. A portion of his clothes was found in his state-room, but the man, money and valuables are missing.

Fire.

NEW YORK, Oct. 6.—The bobbin factory of the Van Riper Manufacturing Company at Passaic, New Jersey, the largest of the kind in the country, was totally burned. Loss, $55,000.

Business Prospects.

NEW YORK, Oct. 6.—The *Express* says it would not be surprising if the money market showed a hardening tendency in future, as it is an indisputable fact that trade is improving and crops have commenced to move from the interior to seaboard. Outside of Wall street a more cheerful feeling prevails and accounts from different parts of the country are hopeful as to the future of general business.

WASHINGTON CITY.

A Call on National Banks.

WASHINGTON, Oct. 5.—The comptroller of the currency has called on the national banks for a report exhibiting their condition at the close of business on Friday, the 1st of October.

Naval Items.

A dispatch received at the navy department from Rear Admiral Almy, commanding the North Pacific Station, dated flagship *Pensacola*, Honolulu, September 29th, reports that it was his intention to sail from that port for California and the western coast of Mexico on or about September 29th to look after American interests in that locality, as affairs seemed to be in a disturbed condition. He expects to arrive at San Francisco about the 1st of February. The health of the officers and crew of the *Pensacola* is good. Out of a complement of 400 persons but two deaths have occurred on the vessel during the past two years.

The Schaffenburg Frauds.

CHICAGO, Oct 6.—A Washington special says the facts in the Schaffenburg case as heretofore telegraphed are embraced in Forney's reports to the attorney-general. The first practical result of his journey was accomplished in securing the indictment of Schaffenburg in the four accounts he took out. The ex marshal was held in the sum of $22,000 bail. Forney also reports that the government ought not to stop there, as he has gathered evidence against Schaffenburg that will warrant thirty indictments for perjury, thirty indictments for fraudulent accounts, and suits to recover upwards of $100,000 fraudulently taken from the treasury of the United States. He says Schaffenburg, who tried to brass out the charges at first, is now thoroughly scared and would jump the country if it were not for his bondsmen, who say that he has received to-day word from Denver that the Colorado delegation will call on the President this evening to beg off for Schaffenburg. They will claim that his prosecution will break down the party in Colorado; meanwhile the present marshal, Col Chas C Tompkins, a man whom the ring cannot scare or buy, is a nephew of the President and has also made arrangements to call on Mr Grant with the delegation. Mr Forney says if the government pushes the cases now in the U. S. courts, those against Schaffenburg, D Moffat & Co and ex Register Cook for the loss and frauds, the ring will be completely broken up and the reign of good men in Colorado secured.

Revenue Matters.

CHICAGO, Oct 6.—A Washington special says the customs receipts for the quarter ending Sept. 30th were $41,802,181. Reports from ports not yet heard from may swell this amount to $44,500,000. Compared with the corresponding quarter of 1874 there was a falling off in customs receipts last quarter of over $[illegible],000. The internal revenue receipts for September 1875 were $[illegible], or more by $[illegible] than in September 1874. This large increase in the receipts from this source shows that the vigorous measures adopted by Secretary Bristow to administer the laws and suppress fraud have had a most beneficial effect on the honest collection of taxes, and the increased rates imposed last winter will, in the opinion of Commissioner Pratt, add $[illegible] to the receipts from internal revenue this fiscal year. The comptroller of the currency in his annual report will devote much space to general reform of the financial theories. He will show the great antiquity of all schools of finance which are now under discussion in this country.

Doings of the President.

WASHINGTON, Oct. 6.—The President signed a number of papers at Denver last evening and forwarded them by mail to this city. No information received here as to their character, but it is believed that among them is the commission of the new secretary of the interior.

Indians Visiting Washington.

WASHINGTON, Oct 6.—A delegation of Pueblo Indians from New Mexico arrived here this morning unaccompanied by any agent or interpreter. They can only speak mixed Spanish. They were taken to the Washington House and a gentleman speaking Spanish took them to the Indian bureau about 1 P. M. They bring a letter of instruction from the Indian agent at New Mexico, also a petition in Spanish setting forth their grievances and the object of their visit.

BY ATLANTIC CABLE.

LONDON, Oct [illegible].—The hop pickers have now entirely finished and it is believed that no less than one fifth of the crop has failed, the hops being left on the poles as they are not worth picking. The growth this year cannot supply the home trade. Good samples of English hops have accordingly advanced from 8s to 10s per cwt.

BERLIN, Oct 6.—Emperor William will leave here for Italy on the 16th inst.

Anti-Vatican Meeting.

LONDON, Oct 5.—An enthusiastic meeting to protest against Vaticanism was held at Glasgow last night. A letter from Gladstone was read expressing sympathy with the object of the meeting.

Chinese Politics.

LONDON, Oct 5.—A *Times* special from Shanghai says a decree appears in the *Gazette* at Pekin concerning hereafter intercourse between chiefs of government departments and foreign ministers.

Shipping Peaches.

The experiment of bringing peaches per steamer *Canada* from New York in boxes on deck arranged on the Alligretti refrigerating plan was a success, the fruit being delivered here in good order and largely purchased.

Bank of England.

LONDON, Oct 6, 5:30 P. M.—The amount of bullion withdrawn from the Bank of England on balance to-day is £[illegible].

Why the Montana Returned.

It now seems that the sea stove in the *Montana's* forecastle deck. She is otherwise uninjured. Her return was merely a precautionary measure.

Turkey's Troubles.

VIENNA, Oct 5.—The *Tages Presse* says that because of the doubtful policy of Servia the great powers commenced negotiations with a view of giving notice of their withdrawal of the guarantee regarding the rights and immunities of Servia. Prince Milan informed the skuptchina of danger. The change of ministry is to prove the genuineness of his pacific declarations.

LONDON, Oct. 6.—A dispatch to the *Times* from Vienna says it is estimated that the arrears of taxes remitted by Turkey through the operation of a recent decree amount to thirty million dollars.

VIENNA, Oct. 5.—The *Tages Presse* says Germany and Russia agreed to entrust to Count Andrassy, the Austrian Premier, the task of drawing up a reform proposition for the pacification of the insurgents in Turkey.

ST PETERSBURG, Oct 5.—The *Journal de St Petersburg*, with reference to reforms offered to the insurgents by the Sublime Porte, regards the concessions of the provincial representatives the best that could have been made to settle the present difficulties. It is certain to meet general approval. The *Journal* adds that not only ought the insurgents to accept, but the great powers ought to see that it is carried out.

BELGRADE, Oct 6.—Prince Milan has informed the skuptchina that his ministers had secretly pursued an independent policy almost amounting to conspiracy against the prince. It is unanimous in its opinion to sustain the prince. The new ministry has not yet been formed.

Spanish War News.

HENDAYE, Oct 5.—Monday all the steamers in the harbor of Santander were embargoed to convey troops to San Sebastian to-day. It is reported the garrison of San Sebastian have silenced the Carlists batteries.

CANADA.

Guibord to be Buried.

OTTAWA, Oct. 5.—It is reported that 100 picked men from the governor general's foot guard have been detached to proceed to Montreal to be present at the burial of Guibord's remains.

Navigation Closing.

A number of steamboats and other craft have already gone into winter quarters.

OREGON

The Governor has appointed ex-Governor A. C. Gibbs, of Portland, a notary public for Oregon, to reside in Multnomah county.

A gentleman named W. G. Cradelbaugh, of Portland, was attacked with hemorrhage of the lungs at the Chemeketa hotel, at Salem, last Tuesday.

On Monday Governor Grover appointed Manuel C. Jordan and reappointed Henry C. Banks commissioners of deeds for Oregon, the former to reside in Jacksonville, Florida, and the latter in New York City, N. Y.

Wm. Claypool, who lives eight or nine miles from Albany, on the Lebanon road, last Monday set some straw on fire. The fire communicated from the straw to the fence and, before it was discovered, had destroyed a quarter of a mile of it.

The school for deaf mutes in Salem, which is superintended by Rev. P. S. Knight, resumed its session Monday. Thirteen new scholars put in an appearance, six of whom were females and seven males. After the fair the attendance will be much larger. The Institute for the blind, which is under the supervision of Rev. J. H. Babcock, also opened on Monday, four pupils being in attendance. The new teacher, Mr. H. C. Kaiser, has taken charge, and an increase in the number of pupils may soon be looked for.

Last Monday, Mr. Barnard Conrove, who lives about five miles east of Lebanon, in the forks of the Santiam, went down into his well, which has a depth of some twenty-five feet and was walled with cobble stones, to get the bucket used for drawing water out of the well, the rope having broken and let it fall in. Mr. C. had hardly reached the water in the well when about eight feet of the wall from the top caved in on him, placing it beyond his power to get out of the well. Here he lay buried under an immense weight of rock and dirt for about three hours before succor arrived. As soon as Mr. C.'s perilous position became known, the neighbors went to the rescue, and soon dug him out, strange to relate safe and sound, with but a few slight bruises to remind him of his narrow escape from a most frightful death.

PACIFIC COAST NEWS.

CALIFORNIA.

Meeting of Stockholders

SAN FRANCISCO, Oct 5.—The annual meeting of the stockholders of the Bank of California was held to-day at 11 A. M., at which [illegible] shares were represented out of [illegible]. Of these Mr Sharon, representing the syndicate, voted 28,000, the balance being in the hands of individual holders. The meeting proceeded to the election of a new board of trustees, resulting in the choice of D. O. Mills, Thomas Bell, Wm Sharon, G. H. Howard, Wm Alvord, Wm Norris, John O. Earl, James R. Keene, Robert F. Morrow, Nicholas Luning and L. J. Baldwin. Mr Baldwin had previously been elected to fill the vacancy left by the death of Mr Ralston; otherwise the old board were elected, except Messrs Tallant and Sachs, who are replaced by Keene and Morrow. The trustees will meet to-morrow for organization, when it is understood that D. O. Mills will be reelected president. A statement was made to the stockholders of the present condition of the bank, and some review was made of the causes which led to its suspension. But on these points the bank officials keep their own counsels, except to intimate that the present condition does not vary much from the latest reports; that by judicious management, the assets will prove sufficient to pay depositors and return to stockholders from twenty to forty per cent of their stock. The stockholders are reported to be well pleased with the manner in which the affairs of the bank have been worked up, and passed a vote of thanks to the trustees and syndicate for their efforts in behalf of the institution. A committee was appointed to revise the constitution and by-laws, consisting of Judge Hagan, H. W. Carpenter and Messrs Haward, Sharon, Mayne and Mills, with instructions to report on the 2d of November.

Meeting of the Grand Lodge I. O. G. T.

The Grand Lodge of Good Templars met at Saunders' to-day with a full attendance, Rev Isaac Walker, grand chief templar, presiding. Thursday was fixed for the election of officers. Reports of the chief templar and secretary were presented and the lodge adjourned at 5 o'clock.

California State Grange.

The State Grange met to-day at Dashaway hall. There was a very large attendance, but thus far the proceedings have been conducted with closed doors.

A Heavy Firm in Trouble.

SAN FRANCISCO, Oct 6.—A meeting of the creditors of Gorjola & Andrada was held yesterday. The firm is engaged in general commission business, mostly with Mexico and Central America. They have also been engaged in several operations in lands on the Colorado river with a view of colonization and improvement, in the development of mines in Sonora and in the construction of roads in Central America. The recent unfavorable state of the money market and difficulties experienced in the management of their Mexican and Central American enterprises have forced them to a compromise with their creditors. No basis of action is yet decided upon. The balance sheet of the firm shows liabilities to be $180,000 in round numbers, with $153,000 assets. Much of the assets, however, at present are unavailable.

Horticultural.

The State Fruit Growers' Association held a meeting to-day and took steps looking toward the organization of a company to conduct the fruit market on a large scale, and engage in drying and canning fruit.

Resignation of Mint Officers.

SAN FRANCISCO, Oct 6.—It was rumored about the street last night that General O. H. La Grange, superintendent of the Mint, and Bernard Landt, his chief clerk, had resigned. The reason given was the connection of the general's name with the appointment of Pinney to the position of disbursing clerk under naval pay inspector Spaulding. Inquiry at the headquarters confirms the rumor as to Landt, his resignation having been handed to his chief and accepted. The superintendent has again sent in his resignation, although for three years past it has been in the hands of the President, to be accepted whenever, in the judgment of the chief executive, the interests of the institution would be benefited thereby, or whenever political exigency should demand the same.

The superintendent says he is ready to show a square balance sheet at any time his successor may demand the same. From other sources it is learned that Dr Linderman, director of mints, is endeavoring to effect the removal of the superintendent in consequence of the decided action in causing the refining of gold and silver to be done at the mint itself instead of being done under contract by the San Francisco refining works, as has been the case for some years past. Mr Sargent is also said to be laboring in the same direction, and the name of Mr Wheaton, present chief clerk in the office of the superintendent of the United States mail service, is mentioned as his probable successor in case his removal is effected.

In regard to the published statements referring to the appointment of Pinney, the superintendent says that while employed in his office, Pinney was a faithful clerk, but as he was dealing heavily in stocks the office of the mint was frequently occupied more with that business than with the affairs of the government, to which he objected and desired to find him another position. He was totally unacquainted with Major Spaulding until introduced to him at Escadero, when he did say that Pinney would be found a most efficient clerk, and afterwards, at an accidental meeting in a restaurant in this city, he introduced the two. He frankly admits being deceived in the man, but claims that in this respect he finds himself in company with some of the sharpest business men in San Francisco.

THE TERRITORIES

The Ogden Iron Manufacturing Co., a Utah flash corporation, has gone into bankruptcy.

Major Caffey, a Nebraskan, steps into the Cheyenne land office, vice Winsor, removed.

The Seattle hospital is now full, a large proportion of the inmates being private patients.

The *Statesman* says that E. W. Jones has sold the Idaho *World* establishment to his brother C. E. Jones.

Eighty five bars of South Mountain bullion weighing 8,317 pounds were recently shipped to Winnemucca.

Nature's latest freak is in a Beaver, Utah, kitten with two faces, four eyes, two noses, two mouths and two pairs of ears.

W. H. Sterns cut short his second trial, at Helena, Montana, for the murder of Ward, by rising in court and confessing to the murder.

Eight acres of wheat owned by Tom Johnson, of Big Thompson, Larimer county, has just yielded 55 bushels per acre, or a total of 440 bushels.

At [illegible], Friday of last week, a Chinaman and a negro settled a dispute with razors. John is now short a couple of fingers and Sambo is wearing a yard or two of sticking plaster on his face.

Judge Alexander White, an Alabamian, lately appointed chief justice of Utah, is the same White who, in the convention of 1865, desired God's thunder to blast him if ever he proved recreant to the Lost Cause.

A sensation has been created at Laramie by the disappearance, under circumstances more or less mysterious, of Mike Dwyer, living near Red Butte station. Since he was missing another member of the family has been arrested for cattle stealing.

At the second day's races at Boise City last week, Emma McCormick won the mile dash for $200, in 1:48½, beating Sleepy Dave by 15 feet. Rosa Mansfield was third in the race. Planter won the mile dash for two-year olds, purse $200, the same day, in 1:53.

The Canyon City *Times* tells about a hand to paw fight between Wm Cooper, of Garden Park, and a big black bear. While the beast was clawing the meat off of Cooper's thigh, his companion, a Mr Gibson, appeared on the scene and shot the bear through the heart.

In an address before the Colorado Wool Growers' Association last week, the speaker said: "There were in Colorado in 1870 120,928 sheep, and to the best of my knowledge and belief there are to-day at least 600,000, which will yield at next clipping time one-half million dollars' worth of wool. Add to this number 60,000 which have been imported from New Mexico, and 8,000 which have been imported from the states within the last three months, and we have in round numbers, one year from to-day, 1,000,000 of sheep in Colorado alone."

The Seattle Coal Company last week, after getting in with their two tunnels to a distance of over 2,300 feet, found the point of their intersection, and at it the main vein of their coal lead. Heretofore they were only working on the branches, which were only about five feet in width; now they have struck the trunk ledge, which is ten feet in thickness and produces coal of a still superior quality. In addition to this the company have discovered another ledge 600 feet south of this one, and about a mile from the mouth of their present tunnels, which is eight feet thick, of a much older formation, and said to be of the most excellent quality of any yet found upon the Sound.

The Union Pacific train boys have been practicing sharp games on overland passengers. It is alleged that as west bound trains approach Ogden, these boys induce passengers to change their greenbacks for coin at ten per cent premium on the latter, on the plea that only coin is currency west of that city, and that instead of giving the unsophisticated passengers gold, they pass off a spurious article, on one side of which is an Indian head, and on the other a mark which leads the purchaser to believe that he has got possession of a half dollar California gold piece. A Mr Sheridan exchanged for $30 worth of the bogus and innocently attempted to pass some of it before its spuriousness was discovered.

The Seattle *Intelligencer* says a proposition has been made to the company to build and equip the twenty mile section of the Seattle and Walla Walla railroad, and the parties offering so to do agreeing to take their pay in stock in the whole road. The proposition comes from a reliable quarter, has been accepted by the trustees upon condition of a bond in the sum of $250,000 being given for a faithful performance of the contract, and there is but little doubt in regard to this most advantageous scheme being carried out; and when it is, the final completion of the whole road will speedily follow. The entire length of the first section is 20 8-10 miles, with very light grading, and can be constructed ready for operation for a trifle less than $200,000. This amount the parties, who are represented by the person making the above proposition, can readily advance.

The town of Las Cruces, New Mexico, was nearly devastated by a water spout flood Friday, the 27th ult. The *Borderer* says the flood dropped out of the cloud at the foot of Organ Mountain, a little east of town, just in the dusk of the evening. The roar of the rushing torrent was heard long before the seething waves appeared in sight. When it reached the town every street was filled with such a rush of waters that it was impossible to cross, even with a horse. Families in the most exposed portion rushed for safety to other places. In an hour houses and corrals began to tumble, and it seemed for some time that not a house would be left standing. Darkness came on with a heavy rain, and the progress of devastation could be marked in the vivid flashes of lightning and the sound of falling buildings. At midnight the flood began to abate. Saturday morning the village was a mass of ruins.

THE IMPENDING POLITICAL BREAK UP

[From the Chicago Times.]

Coming events cast their shadows before. In politics the coming event whose forecast shadow is now plainly discernible, is the break-up and rearrangement of party formations upon the transcendent finance question.

The swelling wave of repudiationism in Ohio, following the victory of repudiationism in Indiana last fall, and the no less pronounced repudiation movement in Pennsylvania, seem to have forced upon the leading hard-money men in New York a most unwilling recognition of the truth which was pointed out to them by the *Times* last year, namely, that the much advertised resurrection of the defunct "democratic party," was simply a revival, in a new form, of words of the repudiation programme of 1868. That the result in Indiana and every other western state where some style of political miscegenation between Democrats, Grangers, Independents and what not prevailed proved simply the sudden swell of the rag money lunacy was plain to every impartial observer. It was nowhere plainer than in Illinois, where a state convention, after one of the most tremendous battles of debate ever witnessed in a deliberative body, adopted a compromise hard-money programme, and straightway went into partnership with the most crazy rag money organization on the continent, under the senseless firm name of The Opposition. Of that utterly dishonest organization it is within bounds to say that two-thirds at least was made up of out-and-out government shinplaster lunatics. The political character of the "opposition" congressmen elected proves the political character of the constituency which elected them. There is not more than one or two unflinching hard-money members in the whole Illinois delegation. And yet the New York organs of a pretended "Democratic resurrection" hailed this and like results as a victory for hard money! The *Times* warned them of their stupid mistake—and got only their abuse for its pains.

They are beginning to find out their mistake. They are beginning to understand what they ought to have understood a year ago, that in the west "Democratic party" means exactly what the *Cincinnati Enquirer*, and the Ohio, Indiana and Pennsylvania "platforms," and the Pendleton platform of 1868, declare that it means. The word which expresses that meaning best and fullest is that which the *Brooklyn Eagle* now applies to it; it is the word *Repudiation.* That word most truly expresses "the authorized understanding, intention, policy, and resolution of what goes by the name of Democracy" among probably two thirds of all the American electors who respond to that name, and especially among those who confidently expect to win in Ohio and Pennsylvania at the approaching elections.

That the success of the repudiationists in Ohio will give controlling prominence to their repudiation ideas and programme throughout the "resurrected" party, and place its national convention under their easy control, is a condition of the future which no rational person can for a moment doubt. The more sagacious hard-money leaders, of whatever party name, have no doubt on this point. Even those expediency trimmers who, like Thurman, have been hoping to conduct the next political contest with the supreme political issue left out, are forced to perceive the vanity of such a hope. The real issue will not retire at their bidding. Whether of the same party name or of different party names, politicians will be compelled to meet it and to take sides upon it.

In New York, the hard-money men who still label themselves "Democrats" have taken their side in a very firm and decided manner, and have thus precipitated the contest by creating two distinct and positively antagonistic parties of so-called "Democrats." The controversy between them over their respective claims to that name of evil memory is frivolous and ridiculous by comparison to the contest on a fundamental principle of political economy which their action has inaugurated. The name is a mere word without any modern political meaning. The principle is one which constitutes the very corner-stone of liberty and civilization. The contestants are not Democrats and monarchists or anti-Democrats; nor are they Republicans and imperialists; they are, on one side, economists,—men who accept the teachings of history, experience and fact, embodied in the principles of a true political economy; on the other, they are repudiationists—men who reject the truths of political economy, and assert the worst vagaries of the Mississippi-bubble lunacy.

Recent deliverances by two of the most able and conspicuous organs of the economist "Democrats" in New York—the Brooklyn *Eagle* and the New York *World*—plainly foreshadow a resolution to break loose from any alliance or pretended alliance with the repudiationist "Democrats." The article of the *Eagle* (reproduced in the *Times* of Saturday), is an almost as positive declaration of war against the resurrected repudiation Democracy as it is a vigorous denunciation of the repudiation programme. "A change of attitude on the part of eastern Democrats of principle toward alleged western Democrats of manifest expediency has been imminent for months," says the *Eagle*. And the article concludes with the remarkable and significant advice to "the Democrats of Ohio"—by which the writer means only those electors of that label who are economists, or hostile to repudiation,—to "not merely not vote for William Allen" but to "vote for his opponent, General Hayes." Such language from one of the ablest, most prosperous, influential, and astute organs of Governor Tilden is not without a deeper meaning than its words convey.

That it is a forecast of events which have been anticipated and deliberated upon in the councils of the New York economist "Democrats" is further evident from the coincident but more non-committal and indirect utterances of *The World.* Less honest and less independent than the Brooklyn organ, *The World* approaches the subject by reproducing the comments of another journal, and inviting attention specially to certain expressions which predict an approaching break up and rearrangement of political parties according to the supreme political issue. "As to the theory," says *The World*, "that no unity is possible among the Democrats of the East"—economists—"and of the West"—repudiationists—"it will be time enough to discuss that after the present campaign is over. Let us rather take it for granted that the national Democracy will stand shoulder to shoulder next year, *on the New York platform.*" Which is a request to take for granted that which even *The World* lets us see that it regards as impossible in case the repudiationist "Democrats" should be successful in the present campaign.

But more significant still is a later deliverance of the *World* under the caption of "Issues that cannot be put down." The first and foremost of the issues which "cannot be put down" is the fiscal issue,—the issue between the economists and the repudiationists. "Nothing can put down or cover over the real and dividing issues upon which we believe the great contest of 1876 will be fought," says Mr Tilden's home organ. "These are set forth with plainness by the New York Democracy"—that is, by the economist majority in the Syracuse convention. After wasting the space of four editorial columns in a restatement of the "issues which cannot be put down," and which in the writer's opinion consist in a demand for the world's money, the world's market and something which is styled "home rule," the significance of the composition appears in the following words at the close:

"If to-day no political parties existed in these United States a party would straightway crystalize around these three living issues and carry them to victory in 1876. But hard money, free trade, home rule, and administrative reform, are the watchwords of the old, the true and the new Democracy."

It is needless to criticise here the *World's* method of expression—the method of a professional organist who thinks of a political party as something that may exist without a coherent political purpose. It is needless to point out the supposed "issue" implied by the words "home rule" is an issue only in the fancy of some old school doctrinaries like Alexander H. Stephens, which presents no figure of any consequence in the popular thought of the present day. It is needless to declare, what all observers of current political phenomena see and recognize, namely, that the public mind is actually agitated upon and has a realizing sense of only a single issue, that of honest money or dishonest and broken promises, which one issue is all-sufficient for the occasion, and constitutes the real battle field of the impending contest. The matter of interest here is that the overshadowing strength and importance of this single issue is such as to plainly foreshadow a breaking up of existing party combinations, or imagined combinations, and a formation of new party combinations around this one transcendent question of the time. Should the repudiationist "Democracy" prevail in Ohio, of which there is every appearance of probability, the break up foreshadowed will be inevitable. And thus it may happen that the triumph of the repudiation party in Ohio will be a political blessing to the nation.

A loose jointed rustic strayed into a Taunton drug store, the other day, and remarked inquiringly, "I don't spose you've got any sody?" "We have, sir," replied the clerk. "What syrup?" "Who said anything about syrup?—gimme some sody!" "We put in syrup to flavor it," explained the clerk. "Y[illegible] man," retorted the countryman, "[illegible] molasses alone and put sugar in [illegible] expense. I'm just twenty-one, and by [illegible] I can stand it!" 'Twas done.

COUNTY FINANCES.

Some of the Democratic journals of the interior have lately been passing round a statement that Marion and Multnomah counties were both deeply in debt and citing that alleged fact as an evidence of "radical" misrule in local affairs. As to the condition of Marion county we are not particularly advised, but we notice that the papers referred to omit to inform their readers that Marion county has just completed the finest court house in the State, which is said to have cost $110,000. If that county is in debt the building of the court-house in all probability explains the fact of indebtedness. We have never heard that there were any jobs in the court-house and therefore we think it fair to presume there were none and that instead of being attributable to dishonest administration, the indebtedness, if it exists, is evidence merely that the "Radical" county board were intrusted by the people with a much-needed work, and have discharged their trust faithfully and satisfactory.

As to Multnomah the charge is doubly untrue. In the first place the county is not under "Radical" rule. The people of this county decided at the last biennial election that party politics should be eschewed in their local affairs and they accordingly elected the people's ticket. A part of the county officers are of Democratic and a part of Republican antecedents, but with the exception of the County Judge, who is a Republican they were elected without regard to politics. The Judge is a Republican, one of the commissioners an independent Democrat and the other an independent Republican. The County Clerk is of Republican and the Sheriff of Democratic antecedents. During the first year of the present local administration the tax levy was reduced between [illegible] and [illegible] per cent and still the county was carried through the fiscal year, and about $10,000 of indebtedness left by the previous administration was paid off. The county now pays its warrants, on presentation. The taxes of this fiscal year have not yet begun to come in, and in order to meet the current expenses of the county till the collectors begin, a small loan has been obtained but with the taxes of this year, the levy being now 33½ per cent lower than formerly, this temporary loan will be met and the county will be carried through to the end of the fiscal year. These are the facts, and any one desirous of knowing the truth in the premises can find by going to the county records. This county is honestly and economically managed in all its departments. The Sheriff's office costs little more than half what it formerly cost, the Clerk's office shows like reduction, while the county court exercises the closest scrutiny over all the expenditures coming under its control.

AN IMPORTANT DISCOVERY IN QUARTZ MINING.

Mr. Stephen W. Shaw, of San Francisco, claims to have discovered a new [illegible] new chemical agent for reducing sulphurets, chlorides, &c., in gold and silver bearing rock and extracting the gold and silver therefrom. The ingredients of the new substance are not, we believe, made known to the public. The discoverer asserts that by his process he takes $56 a ton from Nevada rock which produces but $20 under the ordinary treatment. The cost of the material for the treatment of sulphurets and chlorides will not exceed $6 50 per ton of rock, and for treating arsenurets the cost will be but little more.

Should this discovery prove equal to the claims of its discoverer it will be of incalculable value to this State and Idaho as the quartz in Eastern Oregon and the neighboring Territory contain large amounts of sulphurets, which render it impossible by the ordinary methods to work them to anything like an approximation to their assay values. Indeed, the treatment of these sulphurets has been regarded as the most important difficulty in extracting the precious metals. It has been estimated that in working rock from some of the principal lodes, not less than twenty-five per cent of the gold and silver is lost. If this can be saved through Mr. Shaw's discovery, it will revolutionize quartz mining and add immensely to the value of bullion annually taken out.

THE MISSISSIPPI ULCER.

There is another ulceration in Mississippi politics. The personal quarrel between Governor Ames and Senator Alcorn has caused a series of riotous demonstrations at Friar's Point, in which the Ames party, consisting of a large number of colored citizens under the leadership of the Sheriff of the county, have frightened the white population out of all propriety. It is a discouraging fact in connection with the efforts to reconstruct society in the Southern States, that a motive of no more importance than a personal affair between two rival politicians can produce such convulsions. A community in which such a thing is possible wants very much of being a safe self-governing community. The attitude of the two races toward each other and their different attitudes toward the general government is the one circumstance that enables the fomenters of disorder to accomplish so much. Perhaps this feature will disappear from Southern politics in a few years, in the natural settling down of all classes into their appropriate and inevitable positions. It must be confessed, however, that this process of natural adjustment does not go on as rapidly or as smoothly as could be wished. Politically that is in its legal status the South is reconstructed. Socially it is not. And the trouble is no one seems competent to bring forward any plan of social reconstruction promising improvement on the present. Legislative enactment certainly will not accomplish it. There is already more of that than there is power and purpose to enforce. The statesman is yet to come to the front who can see clearly the way through this contest of races.

We do not know that we are called upon to enter the lists as the special champion of Mr Collector Scott and possibly he and his friends may think his matters are pretty good matters for us to keep out of, but at the risk of being regarded as one who travels outside his appointed path we venture to remark that the *Fremont Journal* is making itself appear supremely ridiculous by its repeated demands for his removal from office because he, along with some others did not respond when the *Bulletin* needed some six or seven thousand dollars to pay off chattel mortgages but chose rather to let the thing die. The *Journal* appears to be about the only mourner around the corpse of that defunct concern and berates [illegible] for not paying off its debts and making up the deficit of the running expenses as much as if the refusal to do so were high treason to be expiated at the headsman's block. We opine some better cause than that will have to be shown for the decapitation of the individuals whose heads the *Journal* is asking for, or the beheading will prove rather an expensive performance—to adopt the locution of the late Mr Dallow.

LINN COUNTY FAIR.

ALBANY, 11 A. M., Oct. 6, 1875.

The tenth annual fair opened yesterday under most favorable circumstances at least so far as the receipts are concerned. The weather has been excellent. Rains of two days prior to opening laid the dust sufficiently to afford turfmen a better opportunity to spread themselves and the approaches were in good order for traveling. The entries so far have been quite large, particularly so in regard to stock. Fleet steeds [illegible] up to the usual standard [illegible] Hills [illegible]

IN THE PAVILION.

The display is meager, in fact it is generally so though as the fair progresses the entries will increase. [illegible] Plunder is here from Portland with a fine display of rare plants. Hawley, Dodd & Co have farming implements as also H. L. Young of this city, convenient to the pavilion.

THE RACES.

In the afternoon resulted in the success of Mountain Boy two in three, he winning in 2 42 and 2 43. Antelope and [illegible] were entered with the above. The programme announcing quite differently in the trotting a dispute has arisen and the question is open as to disposition of purse. The running contest between Napa and Bill Gird one mile dash followed resulting in favor of Gird in 1 5[illegible]. [Press dispatch down the operator failed to get off my dispatch last night.]

THE OPENING ADDRESS.

Up to hour of writing was not delivered and nobody suffers in consequence.

THE RACES TO-DAY

Will be telegraphed you, your correspondent being unable to throw any light on the subject at this hour.

THE SHOWS

Consist of a menagerie, Rockwell & Hurlbart's attractive exhibition, Wood's entertainment of the Mind Reader, automatons etc., minstrels comprising the talent of Portland youths who are given to that style of business.

THE BOOTHS

Are not so numerous as heretofore. I find A E Miller & Co's branch of the Pacific Candy Manufactory, where the OREGONIAN head quarters have been established, John Bird, Phil Saunders, Joe Webber and others. At Miller's they turn out candy as at home, and Gus knows just how to do it.

Afternoon Report.

[BY TELEGRAPH.]

WEDNESDAY, Oct 6.

Weather continues fine and there is an improvement in the attendance at the grounds. The additional entries of articles for exhibition have been few. No opening address yet. It is probable this part of the programme has been given up.

There were three entries for the 1 o'clock race to-day which was a single mile dash for two-year-old colts. The entries were Bybee's Oregon, Baskett's Ballaus and Schenedick's Limber Jim. The race was won by Oregon, Ballaus second, losing by only a neck, and Limber Jim distanced. Time 1 58½.

At 3 o'clock a race came off which excited considerable interest. It was a running match two best in three for horses raised in Oregon and Washington Territory. The contestants were Gird's Bill Gird, Bybee's Ryestraw and Baskett's Witham. First heat was won by Bill Gird, in 1 54, Ryestraw second, Witham third. The second heat the horses came in in the same order only Witham wasn't with 'em having been distanced. Time same as first heat.

Governor Grover addresses the people on politics this evening which is probably intended as a part of the fair though it is understood to be in the character of a side show rather than as a performance under the auspices of the agricultural society.

THURSDAY'S PROGRAMME.

Entries closed at 11 o'clock A. M.

Agricultural address at 11 o'clock A. M.

At 1 o'clock P. M. the superintendents of the different classes will meet at the secretary's office to select judges of the different classes and to receive from the secretary a list of the articles entered in their respective classes for examination.

Carriage horses—At 1 30 P. M., best span of carriage horses.

Trotting—At 2 P. M., trotting two in three for three-year-olds, purse of $60. First horse $40, second $20.

Trotting—At 3 30 P. M., trotting, three in five, free for all, purse $250. First horse, $165, second, $85.

BRITISH COLUMBIA.

Dr Powell, Indian commissioner has received from Mr Sullivan, gold commissioner of Cassiar mines, some fine specimens of Indian workmanship, consisting of two pairs of gold bracelets, one made of coin gold and the other from Cassiar gold dug on the spot, four silver napkin rings and one pair silver bracelets. All of these articles are beautifully engraved with Indian designs and were made at Cassiar by a Hydah Indian for Mr Swan, U. S. commissioner, to be exhibited at the Centennial.

J. G. Swan, Esq., U. S. Centennial Commissioner, opened at the Hudson Bay Co's store, Victoria, several cases received by the *Otter* from Fort Simpson and Bella Bella containing specimens of Indian manufacture for the Centennial. The articles displayed consisted of masks, dancing dresses, richly embroidered mantles, a head dress with ermine mantle, trumpets, whistles, rattles, castanets, drum, specimen salmon net made of native twine prepared from the fibre of the common nettle, baby cradle, painted boxes, fish hooks, fish lines, ancient stone chisels, hammers and mauls, gamblers' implements, drinking cups, war clubs, daggers, knives, bowls, dishes and other articles too numerous to mention. The gentlemen present pronounced it the finest collection of Indian curiosities they had seen.

The Chicago *Times* puts this under the fifth rib of the Ohio inflationists:

Roaring William Allen boasts that he don't own a dollar's worth of property in the world except that which God made—the land. And yet this Democratic roarer instead of paying the laborers on his land with money which God made—gold—would put them off with promises which the government made and which he would not have the government fulfil. This is characteristic of the whole tribe of rag gamblers. For themselves they want to get the property which God made, to pay in the wages of its production in the [illegible] which a lying government made.

GEN. JOHN MORGAN.

THIS NOTED REBEL GUERILLA COMMANDER [illegible] AFTER HE WAS SUPPOSED TO BE KILLED AND [illegible] A SHORT TIME AT THE CASCADES

It is well known that in the dark days of the rebellion was heard with fear and trembling by many a loyal heart His daring exploits in Tennessee and Kentucky his bold and devastating raids into Indiana and Ohio made his name [illegible] terror throughout the Western states [illegible] was [illegible] his [illegible] within the very sight of [illegible] [illegible] plundered burned and pillaged [illegible] this dreaded character appears for [illegible] years has been a resident of Oregon and [illegible] has his [illegible] been so gentle [illegible] that his nearest neighbors [illegible] suspected that he was any other than [illegible] of Upper Cascades Until very recently he would had been taught to believe that the guerilla Morgan met his death [illegible] in eastern Tennessee having [illegible] shot from his horse and killed by a Federal [illegible] guard But now comes a singular and apparently authentic tale relative to this remarkable man The source from which we have this [illegible] unquestioned veracity and [illegible] [illegible] Pendleton and John Morgan were one [illegible] and the same man then our informant [illegible] has been laboring under a strange hallucination

John Morgan was wounded and fell from his horse as reported but made his escape and in due time reached Oregon His mother resided in Upper Cascade and thither he went and settled taking also his mother's name Pendleton Three years ago he came to Portland and here met our informant and at once each recognized the other Their conversation reverted to old times long before the war and after its commencement at which both were residents of Murfreesboro Tennessee Mr — — We have been requested not to use his name — was present at Morgan's wedding [illegible] that among other things was talked [illegible] Morgan [illegible] secresy upon the friend whom he had so unexpectedly met here and not until the news of *Pendleton's* burial at Upper Cascade on September 23d reached him did he feel at liberty to reveal the secret

About a year and a half ago the bullet which pierced his lung in Tennessee was extracted at Cascades and it is believed that the same wound was at this late day the cause of his death

Morgan's father in law a man named Nelson, is now living on the west side road some twenty miles from Portland He, it seems, is also aware of the circumstances here related Morgan as our informant tells us was a well proportioned man five feet ten or eleven inches in height [illegible] and having a pair of keen eyes in his head and a full beard

It seems quite probable that Pendleton was the real John Morgan but whether or no there are doubtless many persons who can tell us more at least about *Pendleton* from which we can ascertain in time whether our story is well founded or not

AMUSEMENTS.

THE CONCERT Among the most successful entertainments given the present season in this city was the grand orchestral concert of last evening Masonic Hall on the occasion was crowded with the *elite* of Portland Every available seat in the large room was occupied and chairs in some instances commanded a premium A few minutes after 8 o'clock the curtain was rung up and the musical exercises of the evening commenced The orchestra was composed of the following performers violins Messrs Brenner, Sedlak Bell Ach and Mayer double bass Messrs Yost and Heggie, flutes, Fecheimer Upton and Curtis cornets Messrs Peterson and Willis trombone Mr Zick, piano Mr DePrans Mr Simon Harris was musical director, and wielded the *baton* in his usual experienced and skillful manner The opening piece, overture to "Stradella," (Flotow), was performed by the full orchestra Time and harmony was perfect, and the effect of its execution was superb and won applause. Following came a violin solo, selections from "Norma" (Bellini) performed in an artistic manner by Mr J H Brenner His effort met with a warm and deserved recognition Selections from the opera of "Lucretia Borgia" (Donizetti) came next, performed with full orchestral accompaniments Waltz, "On the Beautiful Rhine" (Keler Bela), a most beautiful composition performed by the orchestra in a very entrancing style concluded part first, Part second, in point of critical taste displayed in making the musical selections and as to the manner in which they were executed was fully up to the opening portion. It consisted of the following pieces Selection from "Il Trovatore" (Verdi) by the orchestra piano duet, "Galop de Concert, Qui Vive" by Messrs Brenner and Harris a trio for violin piano and organ, "Ballo in Maschera" by Messrs Harris, Brenner and De Prans Concluding a programme of rare excellence as well as a delightful evening's performance, came "Potan d'Enclume" (Parlow) This selection like preceding ones was rendered by the full orchestra in a most creditable manner and had the tranquilizing effect to send the large audience to their homes well satisfied with the performance of the evening Financially the concert can be recorded as a most decided success and in point of excellence the members of the Amateur Musical Society can be congratulated on the creditable manner in which all concerned acquitted themselves We understand that the society propose to give a series of popular concerts—of which the one last evening was the first—at Masonic Hall during the coming winter

CLARKE COUNTY FAIR.

Second Day.

VANCOUVER, Oct 6 1875

The second day of the fair is much more interesting than the first the most of the entries at the pavilion having been made to-day The exhibit of vegetables and fruits is unusually good—pronounced as good as any of our county fairs through the country The exhibit of fancy articles scarcely comes up to former exhibitions, yet there is a good display of these There is a good variety of jellies, bread, cakes etc showing that the ladies of Clarke county are (or might be) good house wives

The Hathaways take the lead on butter and cheese—some excellent specimens of different ages being on exhibition

Sohns & Schuele exhibit fine butter firkins, of spruce timber, made at their factory in Vancouver.

Specimens of fruit dried by the Whitney method deserve special mention

The best cattle on exhibition are entered by Ed Tyszkiewicz of Columbia island They are short horned Durham blood, imported stock Three years ago the bull weighed 2 200 pounds—can't give his weight now.

The races up to this hour have been as follows Joseph Lee entered [illegible] 3 year old, and Isadore Prouty entered [illegible] 3 year old Lee's horse won the race and purse of $50

Quarter trotting race Kelly entered [illegible] and A. A. Miller, of Portland [illegible] Kelly's horse won the race and purse of $75

The great day of the fair will be to-morrow

The following is the programme for to-morrow (Thursday) 10 o'clock A M fast running horse mare or gelding 2 mile heats 2 in 3 $100 11 o'clock A M ladies horse back riding 11 30 o'clock A M trial of carriage horses 1 30 o'clock P M fastest trotting horse mare or gelding best 3 in 5 $[illegible] 3 o'clock P M plowing match for boys under fifteen years of age $[illegible] 30 o'clock P M for the slowest running horse mare or gelding half mile $10

The police judge made his report which was referred to the appropriate committee

Auditor W S Caldwell presented the following report

[illegible] [illegible] Oct [illegible] 1875

[illegible] report of the police judge of state cases in the police court from July 1 to September 30 1875 herewith submitted shows Fines collected $[illegible], fines [illegible] $[illegible] Fees of police judge collected $[illegible] [illegible] $[illegible] Fees of chief of police collected $[illegible] [illegible] $[illegible]

Of the above amounts *collected* there has been paid into the city treasury by the police judge fees of police judge $[illegible] [illegible] coin and currency $[illegible] equal to $[illegible] net $[illegible] Fees of chief [illegible] $[illegible] [illegible] equal in currency to $[illegible] net $[illegible] It is understood that the police judge deems it his duty to pay the chief's fees into the city treasury instead of to that officer

The chief has also paid into the treasury $[illegible] collected by him in July making the sum of $[illegible] which he is entitled to [illegible] $[illegible]

Of the fees returned as uncollected I am informed a portion has been collected and that upon a settlement of the claims for September by the county court the amount collected as will be paid into the city treasury and the account for the quarter closed as to fees

It will be noticed that the fines collected have not been paid by the police judge to the city treasurer as provided by section 18 of the charter nor has ex-Judge Moreland paid over the fines collected in state cases during his term

It is claimed that the law is defective and that they are ready to pay to the city or county treasurer whenever it is determined to which officer they can legally pay the same

I beg leave to suggest that they be directed to pay the full amount of all fines collected into the city treasury according to the letter and spirit of the charter as amended October 1874 and that they be held harmless in any proceeding brought against them by reason thereof

Respectfully &c

W S CALDWELL
Auditor and Clerk

Adopted as read

THE SUNBEAMS

BY CYNTHIA

Push aside the snowy curtains
 Let me see the sun s last ray
For I think it still is lingering
 Mother where I used to play

Yes, I see it now so clearly
 Little streams of golden light,
And 'tis resting very gently
 On my lilies pale and white

But from them its softly going
 As come to us the hours of sleep
Now the good night kiss is given
And they bow their heads and weep

But I wonder why they're weeping,
 It only lights another home,
And the stars look down to cheer them,
 Till the morning light shall come

Very soon a brighter sunbeam
 E'en when came the hour of sleep
From that mother s heart was stealing,
 And she bowed her head to weep

Then an angel voice did whisper
 " It only lights another home
And the thought came to her sweetly
 That the morning bright would come

It is claimed that the effect of the resumption of business by the San Francisco banks is visible in our local market, in a better feeling in monetary circles, but it is most too early yet for us to realize any of the direct influences of the resumption. There may be however noted the fact that our market is gradually growing into an easier condition, and this improvement will probably be accelerated by the opening of such large money fountains in our city as the Bank of California and the Bank of Nevada, though the improvement now noticed is in part due to the fact that the policy of the banks everywhere on the coast is a little less conservative than that which was adopted at the time of the August crash and followed for several weeks after. A portion of the capital which was held against the possible demands of trade and of depositors, is being released and is again finding its way, by means of loans and otherwise into the regular channels of business. Again, a good deal of the surplus grain crops have been sold, and farmers are beginning to settle with the country merchant, who in turn settles with the importer, thus as rapidly as the money comes out of the banks, where it was held, it goes the rounds of the community of buyers and sellers, and gives an impetus to all branches of [illegible] and commerce.

The Alta, in speaking of the newly-opened Bank of Nevada, says, with its capital of $5 000 000, it may be said to be the debouche for the bullion of the vast bonanza mines, which hold hundreds of millions of dollars in ore, for the reduction of which to bullion the most powerful and effective machinery is operating. As plans are completed the quantity of bullion will monthly swell the operations of the works, which may be regarded as the coin reservoirs of the bank. For the coming year $60 000 000 will be raised at the mines, coined at the mints and disbursed to the public through the Nevada Bank. The world never before saw so gigantic a combination of mines and mints with a bank which will pay out every year, in new coin, a sum equal to the whole capital of the Bank of England and more than double that of the Bank of France. This vast outflow of money, it will be borne in mind is not capital collected from other employments and applied to loans, but is absolutely and entirely new capital continually added to the world's wealth. Even the $5,000,000 subscribed as the capital has been the product of the mine in the last four months, and means are provided to increase that production in a rapid ratio. Of the money that will be paid out from the bank in the coming year probably $40,000,000 will be dividends for the mining shareholders, and will seek every channel of investment which the state offers and that are many and lucrative. Every field of industry will be irrigated by the golden stream; every enterprise be well supported labor well employed and well rewarded and the prosperity of the state "blossom like the rose." Beside the bonanza mines and their debouche on Montgomery street other great mines and numerous diversified sources of wealth will pour forth their profits in aid of the [illegible]. The Bank of California rising, like Antaeus, with renewed vigor after its temporary fall, gives to the world an extraordinary example of the [illegible] soundness of money obligations and the [illegible] of the people. On a smooth sea, the bank, from unexpected and [illegible] causes, suddenly sank, causing a commotion which ruffled the surface for a moment. The [illegible] raised billows have scarcely died away in dilating circles when the fabric again appears in vigorous action. There remains now only to overcome the hesitation of capital momentarily alarmed, and this the reopening of the bank followed by that of the board of brokers will accomplish.

Wheat Market.

This branch of business is evidently attracting more attention as the season progresses, and though a great many farmers are storing their surplus wheat, the offers to sell are by no means infrequent, and a number of transactions are reported to have been made this week in the interior, the quotation being generally given at $1 70 per cental, or what would be equivalent to that figure in this market. Though the money market is perhaps in a condition more encouraging the coin supply is not yet sufficiently free to induce a speculative movement and exporters buy up to their wants for the time being, and when these are supplied they quietly get "out of the market" until some turns in affairs seems to warrant another move. There were rumors of offers as high as $1 75 per cental current on the street during the day but in buying wheat, somewhat as in horse racing "money talks," and while freights and the markets abroad continue as now, we look for but little better prices here. Our hope for an advance is based on a deficiency in the crops of some of the principal grain growing countries of the old world and we believe it to be well founded. From time to time we have published accounts of the condition of the English and other European crops and we append the following from an English paper of a late date

A dirtier lot of wheat fields more knocked about and laid—dusky stained and often prematurely dead—than are to be seen just now all through Staffordshire and Warwickshire so far as they are commanded by the lines of railway one rarely witnesses. And the returns of our correspondents from the southern counties do not describe much better fortune there. Of the returns upon the whole, 56 per cent declare wheat to be an average crop, 52½ per cent put it below an average and, only 6½ per cent declare [it] over average.

Giving all due allowance for these reports being exaggerated at this distance it seems that such accounts can hardly be without some foundation in fact.

But whether the difference of the expense of market, while the roads are good and when the winter rains begin the waste which inevitably results from holding grain a few months, the interest which is lost, and the insurance which is either paid or the risk run will not counterbalance the probable advance, especially when there are chances for a rise in freight also is a question to which each reader must work out the answer for himself. It is our business to give facts as nearly as we are able to get them.

Miscellaneous.

The shipments of Oswego pig iron to San Francisco since the 1st of January to date have been [illegible] tons, all of which has been sold at an advance of $2@6 per ton over other importations to that market.

There were 500 tons of wheat awaiting transportation at the other end of the Walla Walla and Wallula railroad last week.

A San Francisco paper of October 2 says: "As regards salmon the supply from Oregon seems to be about over for the season, and the present available supply in first and second hands is reduced to about 30 000 cases. The sales of 1 lb cans are $1 50@1 55 per dozen as against $1 25@1 40 at the opening of the season. The great rush has been for 1 lb cans. 2 lb cans are now held at $2 [illegible] lb cans, $2 35@2 45 per dozen. The Ocean King for Liverpool has cleared with 4 [illegible] cases while six shipments to New York during the week aggregate 8 [illegible] cases. The Ocean King for Liverpool also carried 60 tierces and [illegible] barrels salmon. The stock of barreled salmon [illegible] barrels is large and they can be bought very cheap."

During the three months ending September 30th the wheat exports from San Francisco amounted to 2,008,093 centals against 1,80[illegible] centals during the corresponding three months last year. The value of the shipments was $4,417[illegible] against $[illegible]

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations must have extraordinary virtues—Perhaps no one ever secured so wide a reputation or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues never equalled by any other medicine. It still makes the most effectual cures of *Coughs Colds Consumption* than can be made by medical skill. Indeed the Cherry Pectoral has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its inmates. Sickness suffering and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks

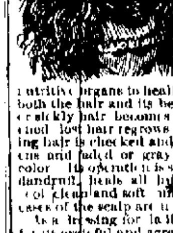
Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY & COLOR.



Advancing years sickness care disappointment and hereditary predisposition all turn the hair gray and either of them incline it to shed prematurely.

Ayer's Hair Vigor by long and extensive use has proven that it stops the falling of the hair immediately often renews the growth and always surely restores its color when faded or gray. It stimulates the nutritive organs to healthy activity and preserves both the hair and its beauty. Thus brashy weak or sickly hair becomes glossy pliable and strengthened lost hair regrows with lively expression falling hair is checked and established thin hair thickens and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors and keeps the scalp cool clean and soft under which conditions diseases of the scalp are impossible.

As a dressing for ladies hair the Vigor is praised for its grateful and agreeable perfume and valued for the soft lustre and richness of tone it imparts
